

Hospital Campus Plan & Sculpture Park

Lehigh Valley Hospital

Collaborative VP of Design Kaye Lynn Johnson designed a campus plan and sculpture park for the 120-acre Lehigh Valley Hospital in Allentown, PA, a regional acute care facility with over 14,000 daily visitors. Thirty-two major pieces of art were selected and sited in settings across the campus, creating outdoor spaces that interpreted the landform, the area's cultural history and aesthetic qualities of the sculptures themselves.

This sculpture garden is listed in "Sculpture Magazine" in their directory of sculpture gardens with the following short description:

"Phillip and Muriel Berman Sculpture Park: The Nation's largest

display of outdoor art in a healthcare setting with 28 works by Cassidy, Garofalo, Gordon, Hide, Hock, Isherwood, Kainz, Macklin, Shaw, Sternal, and Zwegardt."
