

SteelStacks Town Square

Bethlehem, PA

Design of the public areas supporting the redevelopment of the blast furnaces of the former Bethlehem Steel Corporation into a thriving Arts and Cultural campus. Anchored by the Levitt Pavilion and lawn amphitheater, the Square is home to a number of seasonal festivals, including the world-renowned Musikfest. Adjoining plazas provide additional venues for music, dining, markets, recreation, and public art in support of the non-profit ArtsQuest and PB39 studios. *Ignacio performed this work with a previous firm.*

- Merit Award, Special Initiatives Category, American Institute of Architects, Tri-State, 2012
- Global Award of Excellence, Urban Land Institute, 2014
- Gold Medal, Ruddy Brunner Award, 2017, jointly with the Arts and Cultural Campus
